

Team Involvement in Demonstration

Date	7 July 2026
Team ID	XXXXXXXXXX
Project Name	Voice Based Concept Understanding Analyser
Maximum Marks	1 Mark

Team Involvement in Demonstration:

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation
1	Boddu Siri Team Lead	Project Lead, Full Stack Developer & Presenter	Introduction, System Architecture, Final Integration, Live Demo	Led team coordination, trained Linear Regression model, managed GitHub repository, coordinated demo planning	Active
2	Fairoz Mohammad	Speech Recognition Engineer & Presenter	(Speech-to- Text Module	Integrated Whisper, implemented audio upload, and generated speech transcripts.	Active
3	Gagan Vasai	ML Engineer & Presenter	Model Evaluation (Epic 6) — R-squared Score, Actual vs Predicted Plot	Implemented Sentence- BERT, compared explanations with reference answers, and generated similarity scores.	Active
4	Veeramreddy Sathwika	Backend Developer & Presenter	Data Preprocessing (Epic 4) — Null Handling, Label Encoding	Implemented preprocessing pipeline, label encoding, null value imputation, wrote Epic 4 code	Active
5	Thanusree Thota	Frontend Developer & Presenter	Flask Application Demo (Epic 8) — Live Web App Demonstration	Built the results dashboard, generated charts, and implemented PDF report generation.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Boddu Siri

Overall Team Coordination Rating (1–5)	5/5 — Excellent teamwork and timely completion
Any issues during demo	Integration challenges while combining Whisper, Sentence-BERT, Librosa, and Gemini API into a single workflow.
How issues were resolved	Regular code reviews, shared GitHub repository, standardized project structure, and collaborative debugging sessions.
Communication channel used	WhatsApp daily standups + weekly Google Meet + GitHub for code review
Total project duration	8 weeks (Epic 1 → Epic 8)
